Re: Tower Drive Paving

Dear City of Columbus Property Owner / Resident,

The City of Columbus DPW is informing you of the upcoming repaving project on Tower Drive, which was scheduled to begin in mid – September 2021. Columbia County along with private contractors and the City of Columbus will be performing street repair / paving work on Tower Drive from STH 73 (Park Drive) to Faith Drive. Notification was provided to the city today, 10/07/2021 that this project has now been scheduled. Providing there are no unforeseen delays this work will start Monday October 11<sup>th</sup>, 2021.

It will be necessary to close Tower Drive in this area while work is being performed. Columbia County and the contractor will detour most through traffic on Tower Drive onto Faith Drive while this work is being completed. There will be no street parking on Tower Drive from Faith Drive to Park Drive (STH 73). The County will set up detour signs in advance of this project.

If you reside or have property on this block of Tower Drive this letter is to inform you of driveway restrictions / closure during this repaving project. Access to your property will be temporarily restricted due to this project.

If you reside on the section on Faith Drive where traffic will be detoured, this letter is notice of the change of traffic pattern and traffic volume.

Thank you for your patience and understanding throughout this project.

Sincerely,

Jerry Lentz  
Director of Public Works.
